## Tani - Intl Student looking to find a meetup to integrate with locals and in the US

									Lightning talks  MEAL PROGRAM							
Tasks	Find a mentor	Find resources that help you connect			Plan to go to an event				Search for faculty/staff at U-M who want to participate in hosting international students at their homes				Recruit potential international students that maybe interested in these events		Administering Events	
Activities	Find and talk to staff at the international center at U-M	Download international campus resources app on Google Play store or App store	Create an account (if you don't have one already)	Sign in	Pick a meetup group or join an event	Sign-up for the event	Attend the seminar	End of experience	Send out availability request	Check Calendar	Post events to the app	Amend the event	Search candidates	Contact Candidates	Check event catalog	Check-in students
User Steps	Search the app store or google play store: Search for international center for UM students in the app store under "U-M International"	Save it under favorites app link for future use	Enter full name and student ID	Sign in with email and password	Use cursor to scroll through a list of events	Your login credentials will prepulate the sign up field	Decide on the method of travel to the seminar	Rate experience on the app	Confirm the dates and times available by email	Filter through the days and times available for bookings	Register as an event manager	Edit the event as necessary	Plan seminars and send out emails	Send a confirmation email through the app	Organize Event sign-up sheet	Use student's name, email and telephone number to search them on the app
			Enter email	Sign in with Facebook	User picks an event to attend (on or off campus). In this scenario it is off campus	Pick a time you can attend the seminar	If it is a Lyft or Uber decide on what time to leave the home		Organize the days/times in the calendar through the app		Submit an event	Confirm the event amendment	Review application list		Receive confirmation	Get students to confirm their details
			Enter mobile phone number		Show user different descriptions for each type of on campus/off campus activity		User opens their ride app and confirms the ride				Approve the event submission		Review application materials from interested candidates			
			Create a secure password		Use map to pick destination											
					Use current location for closest events
